## An Ethical Will Writing Workshop

*“Writing an ethical will is an opportunity to examine our lives, to notice what we hold as precious and meaningful at the core of our beings. What are the values that we have treasured in our living? Who are the people who have shown us the way? How have our mistakes shaped and enlivened us? What are the great questions we have asked in our lives? What are the answers we have discovered? Writing an ethical will is a process of life review, celebration and legacy.”*

**Presenter: Rabbi Stephanie Aaron of Congregation Chaverim**
